GROUP 2

Project Proposal

LIST OF WEB PAGES

Web Page 1

We will have a signup page

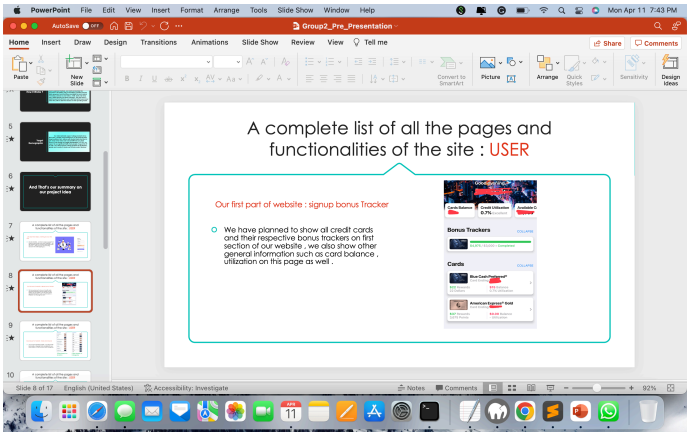
Web page 2

Homescreen -
the home screen will contain the user's basic information with a greeting to user, short info on all features of this like information on other pages of site , and some special information like sponsored deal on jumbotron or carousel or similar items .

Web page 3

Bonus Tracker -

Since we won't be able to implement this , as per your suggestion , we will scrap this out .



Web page 4

we will have a deals and rewards page,
here we will display suitable deals and rewards based on customers' account information.

Web page 5

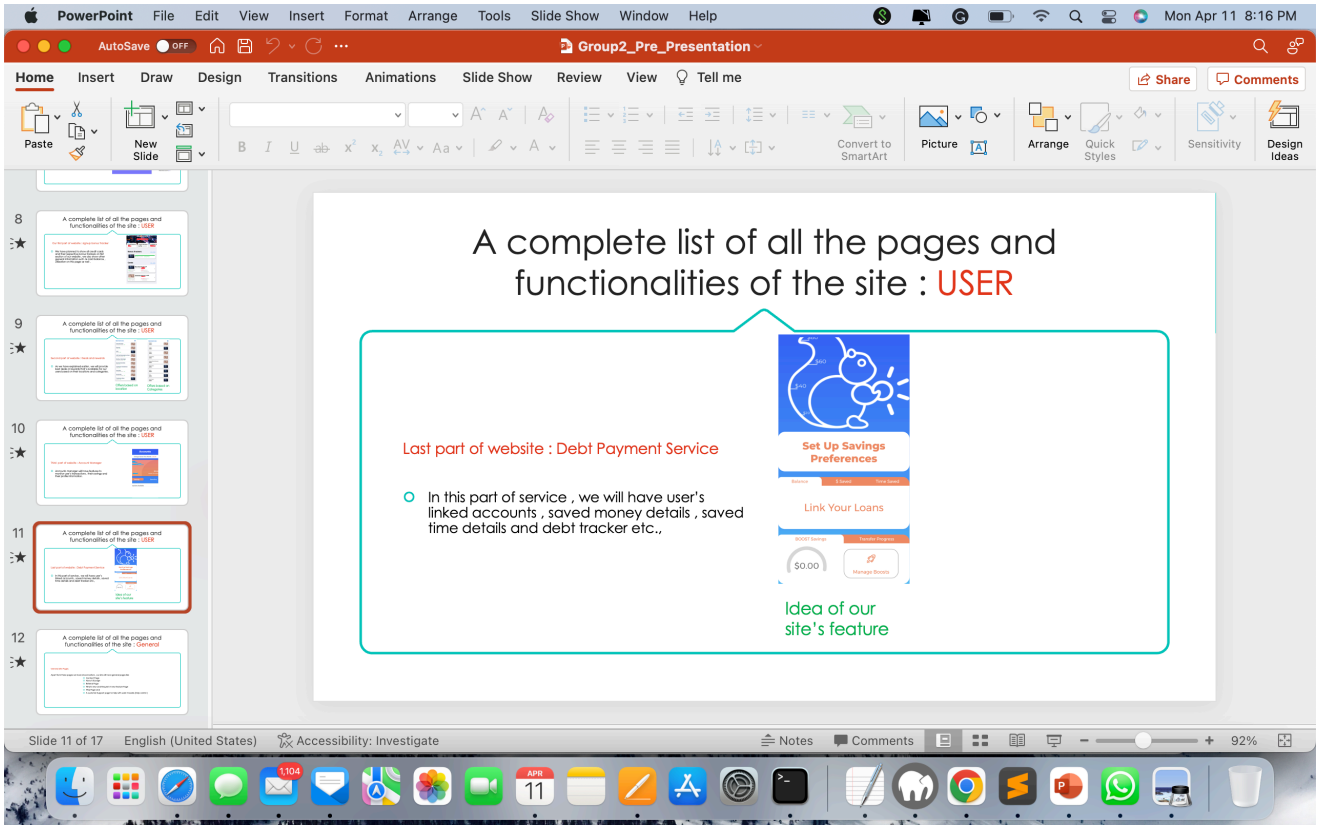
Account information -

It will show users' account and profile information which users can edit like user name or password or other user's information

Web page 6

Debt repayment -

Since we won't able to implement this we will remove this page



Web page 7(new page)

Shopping NFTs -

From the pre-presentation, it's evident that all groups are implementing one or other kind of shopping cart system, we have decided to implement selling or buying NFTs (as we have proposed our site as a medium to make extra cash so we think buying and selling NFTs will go in line with our idea) and also we believe it would demonstrate our learning for this course

we planning to add a new category ie,

we will have user, creator, and admin account levels on this site,

At the creator level, people can put up their NFTs (Digital arts for sale).

Any feedback would be highly appreciated. Thank you.
